

Worker Compensation Waiver

Owner/Operator _____

Resident Address _____

Your contract with Lawrence Transportation Company, a motor carrier operating under public need and convenience, recognizes the relationship of general contractor (the motor carrier) and independent contractor (you, the owner/operator). As such, the motor carrier does not provide worker's compensation for you or your employees. In Minnesota, that is your responsibility.

The Minnesota Workers' Compensation Law states that all employers must provide workers compensation insurance for their employees. As an independent contractor, coverage for you is optional if you are one of the following:

_____ Sole Proprietor of a Business

_____ Partner in a business

_____ Executive Officer of a closely held corporation and you own more than 25% of the business. (A closely held corporation employs less than 11 full time people and less than 11 shareholders)

If you have no employees and desire not to purchase workers compensation insurance for yourself, please check the appropriate box above and sign below:
